

College Campus Masterplan - Presentation to Parents

We are excited to announce that a building masterplan has been developed for our St Patrick's College campus. This masterplan will be implemented over a number of years with stage 1 commencing later this year in 2021. The objectives of the plan are to modernise and enhance a range of educational spaces, improve the school entrance and landscaping of the site as well as to further improve the overall safety of the site.

These works will ensure that St Patrick's College Wellington continues to play a critical role in the Wellington education environment well into this century & beyond.

To attend a **Presentation of the College Masterplan on Thursday 4 March at 6.00pm** please register no later than Tuesday 2 March by advising the College with your details.

To Register for the Presentation:

Please advise the name and contact phone number of each person planning to attend to:

Yvonne Small, College Secretary
